

# US-EPA Grant Funds Available for Brownfield Site Assessments

**The Genesee County Land Bank has  
EPA funds available to support brownfield redevelopment**

## **What assistance can the GCLBA provide under the program?**

- The EPA funds can be used to support brownfield projects by funding or partially funding the following environmental sites assessment activities on qualified sites:
  - Phase I Environmental Assessments
  - Phase II Environmental Assessments
  - Baseline Environmental Assessments
  - Brownfield Plans

## **Who is eligible to apply for site assessment assistance?**

- You may be eligible for these assessments if the GCLBA approves your application.
- Projects must support economic development, neighborhood revitalization and/or create jobs.
- Eligible applicants include private, public, and non-profit organizations which are not responsible for or have not contributed to the contamination on the property at the time of application.
- Matching funds required.
- The value of site assessment assistance provided to applicants (business/entity/ collaboration/partnership) may not exceed \$8,000 within a three (3) year period.

## **How do you apply?**

- Complete a project application and return to the GCLBA with supporting documents.
